

## MY NEW CHECKING ACCOUNT

### GUIDELINES

Every sixth grader will be given a \$100.00 instant deposit (equivalent to 100 points) that will activate their new account.

Starting on the first Monday of the month of September every student should be ready to use their account as part of their Math class.

Your accounts will show a balance of \$100.00/points to begin with this quarter. You will earn extra points/\$ every time you turn in an assignment/test/quiz with a grade "C-" or above. If your work shows a grade lower than "C-" you will have to write a check instead.

Each student will be responsible for keeping his/her account always updated. Every week each student must record his/her balance in the electronic sheets found in the classroom computers. The ATM machine provides cash for each transaction. At the end of each quarter students will have funds/points transferred in order to improve their grades.

**Students who do not hand in work of any type will have to write a check for \$5.00 the first time, \$10.00 the second time, and the third time their account will be canceled for the quarter.**

Students who do not follow these guidelines will earn a grade lower than "C-" on their report card, or an incomplete grade, depending on each student's average
